# DELIVERING ICT AND ENERGY MANAGEMENT PROJECTS TO SCHOOLS ACROSS NEW ZEALAND

## ABOUT TORQUE IP

TorqueIP Ltd is a wholly owned New Zealand company. From its original core expertise in networking and communications infrastructure, TorqueIP has built a business and reputation on providing independent advice and management on all aspects of delivering the technology infrastructure needed for the ICT learning environment. From Networking, Voice over IP, Wireless, Communications Cabling and its associated Connectivity, Servers & End Point Products (Desktops, Laptops, etc) Procurement through to HVAC and Power, TorqueIP helps schools to make the right technology choices and deliver successful technology and energy efficiency projects.

TorqueIP has particular expertise in the education sector – where large infrastructure projects are commonplace. We have provided project management and design for infrastructure upgrades to over 800 schools. TorqueIP has assisted in developing and designing solutions to standards, issuing project tenders, project management and auditing for many schools across the nation.

## THE TORQUE IP TEAM

Torque IP is led by two of its directors, Phil Earl and Mak Kulkarni, who have been with the company since its inception.

Phil and Mak shared a vision of bringing together a team of skilled professionals in what was the then developing field of technology infrastructure.

Today, they lead a national team of professionals with a unique combination of technical expertise and practical on-site experience that ensures the decisions they help you to make, are the right ones.
